

DATABASES 4

Your school wants to create a database to store student's details.

List the fields that you think they might want to store

Design a data capture form below that would help the school office collect those details from students.

Use your data capture form to help you set up your database.

Enter the fields in the table below then collect data from five of your friends to enter into the database.

You may:

- Guide teachers or students to access this resource from the teach-ict.com site
- Print out enough copies to use during the lesson

You may not:

- Adapt or build on this work
- Save this resource to a school network or VLE
- Republish this resource on the internet

A subscription will enable you to access an editable version and save it on your protected network or VLE
